## Independent Auditors' Report

Board of Directors  
Klamath - Lake Counties Food Bank

We have audited the accompanying financial statements of Klamath - Lake Counties Food Bank (a nonprofit organization), which comprise the statements of financial position as of June 30, 2015 and 2014, and the related statements of activities, functional expenses and cash flows for the years then ended, and the related notes to the financial statements.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Klamath - Lake Counties Food Bank as of June 30, 2015 and 2014, and the changes in their net assets and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

**Klamath - Lake Counties Food Bank**  
**Notes to the Financial Statements**  
**June 30, 2015**

---

**Note 1 – Summary of Significant Accounting Policies**

**Background**

Klamath-Lake Counties Food Bank (the Organization) is a not-for-profit, private corporation designed to solicit, store, and distribute food to those with emergency food needs in the Klamath and Lake County regions of Oregon and the northernmost parts of Siskiyou County in California. The Organization was incorporated July 2, 1984. The Organization solicits food from the food industry, conducts general food drives from the public, purchases food with federal, state, and private funds, and receives commodities from the United States Department of Agriculture (USDA) and the Oregon Food Bank, Inc. (OFB).

**Basis of Presentation**

As a Not-for-Profit Organization, the Organization is required to report information regarding its financial position and activities according to three classes of net assets; unrestricted net assets, temporarily restricted net assets and permanently restricted net assets.

**Restricted and Unrestricted Support**

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support, depending on the existence and/or nature of any donor restrictions. Support that is restricted by the donor is reported as an increase in unrestricted net assets if the restriction expires in the reporting period in which the support is recognized. All other donor-restricted support is reported as an increase in temporarily or permanently restricted net assets, depending on the nature of the restriction.

**Fair Value of Financial Instruments**

The following methods and assumptions were used by the Organization in estimating the fair value of its financial instruments. The carrying amount reported in the balance sheets for the following approximates fair value because of the short maturities of these instruments: cash and cash equivalents, accounts receivable, unconditional promises to give, beneficial interest in assets held by the Klamath Community Foundation, accounts payable, and accrued expenses.

**Fair Value Hierarchy**

All financial assets and liabilities are required to be categorized according to the following:

- Level 1 - using quoted prices in active markets for identical assets
- Level 2 - using significant other observable inputs
- Level 3 - using significant other unobservable inputs

**Use of Estimates**

The process of preparing financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Donations of commodities are recorded as support at their estimated fair value, based on information provided by Feeding America and the OFB, which information has been reported on by another independent firm of certified public accountants. The organization has estimated the average fair value of commodities donated by the public to be \$1.25 per pound at June 30, 2015 and \$1.39 per pound at June 30, 2014. Certain commodities received from the OFB have been recorded based on the OFB's estimation of their value. Certain other commodities received from the federal government are recorded at the estimated fair value provided by the USDA. Federal Emergency Management Agency (FEMA) foods and any other food purchased by the Organization are valued at cost.

**Cash and Cash Equivalents**

For purposes of the Statement of Cash Flows, the Organization considers all unrestricted highly liquid investments with an initial maturity of three months or less to be cash equivalents. The Organization maintains the majority of its funds with one bank. All deposits were covered by FDIC insurance for the years ended June 30, 2015 and 2014.

**Klamath - Lake Counties Food Bank**  
**Notes to the Financial Statements**  
**June 30, 2015**

---

**Note 1 – Summary of Significant Accounting Policies (continued)**

**Accounts Receivable**

Management believes that all share fees, grants and contributions receivable as of June 30, 2015 and 2014 were fully collectible; therefore, no allowance for doubtful accounts was recorded. No agency is denied food due to an inability to pay share fees.

Where needed, the Organization will allocate restricted grants, in the form of credit memos, to agencies, using FEMA and private funds to cover the share fees. No formal grant procedure other than board approval is required. Agency receivables with credit balances have been included as a current liability in "Agency deposits" in the accompanying statement of financial position. The Organization does not require collateral from its customers and does not charge interest.

**Inventory**

Inventory, determined by the first-in, first-out method, consists of donated goods, commodities received from the OFB and government agencies, and purchased food. The portion of the donated goods inventory related to community donations is stated at \$1.25 and \$1.39 per pound, the estimated fair value of the donation for both the years ended June 30, 2015 and 2014 respectively. The value of items received from the OFB as supplemental items are valued by the OFB. The value of commodities, donated through the USDA, is stated at the estimated fair value provided by the USDA. Purchased food inventory is stated at cost.

**Property and Depreciation**

Property and equipment is stated at cost or, if donated, at the approximate fair value at the date of donation. The Organization has elected to capitalize equipment with a cost greater than \$500. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets, which range as follows:

	<u>Years</u>
Office Equipment	5-7
Machinery and Equipment	5-10
Building and Improvements	10-39

**Donated Assets**

Donated food, marketable securities, and other noncash donations are recorded as contributions at estimated fair value at the date of donation. All food (purchased and donated) is recorded as an expense when it is distributed. Differences appear as changes to inventory on the statement of cash flows. Donated fixed assets affect the statement of cash flows as gains in operating assets.

When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified to unrestricted net assets and reported in the Statement of Activities as net assets released from restrictions. It is the Organization's policy to expend all eligible restricted funds first.

**U.S. Government Programs**

The Organization is considered a Regional Food Bank (RFB). As such it has entered into a contract with the OFB, the State Coordinating Agency (SCA). The Organization has also entered into contracts with Local Member Agencies (LMA) for the distribution of food and commodities to the LMA's clients.

The Organization submits reimbursement requests to the OFB covering their storage and distribution expenses. Reimbursement for these expenses, up to the allocated amount of funds available, represents grants of federal funds to sub-recipients. Direct costs of storage and distribution for the USDA commodities incurred by the Organization are reimbursed by the State of Oregon using funds provided by the USDA through The Emergency Food Assistance Program (TEFAP), and the Commodity Supplemental Food Program (CSFP).

Continued funding levels of the emergency food assistance programs are subject to annual renewal by the Congress of the United States.

**Klamath - Lake Counties Food Bank**  
**Notes to the Financial Statements**  
**June 30, 2015**

**Note 1 – Summary of Significant Accounting Policies (continued)**

**Contributed Services**

During the years ended June 30, 2015 and 2014, the value of contributed services meeting the requirements for recognition in the financial statements was not material and has not been recorded. In addition, many individuals volunteer their time and perform a variety of tasks that assist the Organization at both the Organization's location as well as at LMA sites, but these services do not meet the criteria for recognition as contributed services.

The Organization received 1,103 hours directly in 2015 and 1,230 hours directly in 2014. The LMAs received 19,420 hours directly in 2015 and over 18,984 hours directly in 2014.

**Expense Allocation**

The costs of providing various programs and other activities have been summarized on a functional basis in the Statement of Activities and in the Statement of Functional Expenses. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

**Tax-Exempt Status**

The Organization is a tax-exempt organization as defined by Internal Revenue Code Section 501(c)(3) for federal tax purposes and has been classified as an organization that is not a private foundation under Section 509(a)(2). It is also tax-exempt for state purposes and reports annually to the Oregon Department of Justice, Charitable Trust Section. There was no unrelated business income for 2015 or 2014. The Organization believes that it has appropriate support for any tax positions taken, and as such, does not have any uncertain tax positions that are material to the financial statements. The Organization's federal Exempt Organization returns (Form 990) for the years ended since June 30, 2012 are subject to examination by the IRS, generally for three years after they are filed.

**Advertising**

The Organization's policy is to expense advertising costs as the costs are incurred. Advertising expense for the year ended June 30, 2015 was \$13,975 and for the year ended June 30, 2014 was \$16,688.

**Note 2 – Promises to Give**

Unconditional promises to give consist of the following at June 30, 2015 and 2014:

	<u>2015</u>	<u>2014</u>
United Way	\$ 14,413	\$ 24,000
USDA TEFAP	4,723	4,056
FEMA - Emergency Food Shelter Program	4,000	1,972
Oregon Food Bank - OHCS/GFFP	-	24,795
Receivable held by Thunderbird	-	11,196
Other	750	-
	<u>\$ 23,886</u>	<u>\$ 66,019</u>

Although donor designations to the United Way may vary, differences between the amount allocated and collected from the United Way have historically been insignificant. Accordingly, no provision is made for uncollectible amounts. Uncollectible amounts for other unconditional promises to give are also expected to be insignificant.

There were conditional promises to give of \$14,413 at June 30, 2015 and \$24,000 at June 30, 2014, from the United Way. These promises are conditioned upon the United Way achieving its community goal during the campaigns to be held in the fall of 2015 and 2014, respectively. As such, these amounts are not recognized as income or receivables until the conditions have been satisfied.

**Klamath - Lake Counties Food Bank**  
**Notes to the Financial Statements**  
**June 30, 2015**

**Note 3 – Restricted Net Assets**

Temporarily restricted net assets are available for the following purposes or periods:

	<u>2015</u>	<u>2014</u>
FEMA Funds – for the purchase of food and to assist Agencies with the delivery cost of items	\$ 4,000	\$ 1,972
Private Donation - for food purchases at Gift Cards	460	11,492
Wishes Come True Donation - for the purchase of items or services for the Wishes Come True events	<u>5,869</u>	<u>1,624</u>
	<u>\$ 10,329</u>	<u>\$ 15,088</u>

The FEMA Funds amount is kept in a separate bank account according to the restrictions of the grant. All funds listed above are temporarily restricted to be used for the purposes noted above.

Permanently restricted net assets consist of amounts that were received from donors restricting their use to the creation of a permanent endowment. These consist of the following:

	<u>2015</u>	<u>2014</u>
Endowment Funds	<u>\$ 375</u>	<u>\$ 375</u>

**Note 4 – Concentration of Credit Risk**

The Organization received approximately 45% of its funding in 2015 and 30% in 2014 through food and cash donations from the OFB with an estimated fair value totaling \$847,725 and \$808,465, respectively.

**Note 5 – Related Party**

Related parties consist of members of the board of directors and management who are associated with or otherwise do business with the Organization. The Organization had transactions with two businesses associated with new board members during the years ended June 30, 2015 and 2014. This included the purchase of food from a store associated with one board member totaling \$23,362 and \$36,273, respectively. A portion of those food purchases were made based on a contribution of gift cards for that store that had been made by an unrelated donor to the Organization. Additionally, the Organization receives advertising services from a business associated with a second board member totaling \$2,460 and \$3,674 for the years ended June 30, 2015 and 2014, respectively.

**Note 6 – Endowment Fund - Beneficial Interest in Assets Transferred**

The Organization's endowment consists of funds from donors that had a restriction on their use but allowed for the use of their income or growth to fund the ongoing operations. Additionally, the Organization's Board approved a transfer of \$10,000 from unrestricted funds to start the endowment. As required by generally accepted accounting principles, net assets associated with the endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions

The Board of Directors of the Organization has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Organization classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the

direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the endowment fund that is not classified in permanently restricted net assets is classified as either unrestricted net assets or temporarily restricted net assets based on the following. It is classified as unrestricted net assets to the extent of the original board contribution. Any remaining amount in the fund which consists of the growth is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Organization in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Organization considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the various funds, (2) the purposes of the donor-restricted endowment funds, (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return from income and the appreciation of investments, (6) other resources of the Organization, and (7) the Organization's investment policies.

The Organization has a spending policy of appropriating for distribution each year between 4-5% of its endowment fund as needed for operations. In establishing this policy, the Organization considered the long-term expected investment return on its endowment. Accordingly, over the long term, the Organization expects the current spending policy to allow its general endowment fund to grow and allow it to keep up with expected inflation. This is consistent with the Organization's objective to maintain the purchasing power of the endowment assets as well as provide additional real growth through investment return.

To achieve that objective, the Organization has adopted an investment policy that attempts to maximize total return consistent with an acceptable level of risk. This was done by establishing an endowment fund with the Klamath Community Foundation. The Klamath Community Foundation invests these assets in a well-diversified asset mix which includes debt and equity securities, and other investment assets, that are intended to result in a consistent inflation-protected rate of return that has sufficient liquidity to make annual distributions at the desired rate. Accordingly, the Organization expects its endowment assets, over time, to produce an average rate of return of approximately 8% annually. Actual returns in any given year may vary from this amount. Investment risk is measured in terms of the total endowment fund, investment assets and allocation between asset classes and strategies are managed to not expose the fund to unacceptable levels of risk.

The transfers to the Klamath Community Foundation were made with the understanding that the Organization would receive annual distributions of these funds in the 4-5% per year range based on the determination of the Klamath Community Foundation's board. Additionally, the Organization can request return of any additional funds with a majority vote of the Organization's board of directors and advance notice to and approval of the board of directors of the Klamath Community Foundation. At the time of the transfer, the Organization granted variance power to Klamath Community Foundation. That power gives the Klamath Community Foundation the right to distribute the investment income to another not-for-profit with similar objectives and purposes selected by the Klamath Community Foundation in its sole discretion, after consulting with and seeking the advice of such members of the board of directors of the Organization.

Changes in endowment net assets as of June 30, 2015 and 2014 are as follows:

	<u>Unrestricted</u>	<u>Temporarily Restricted</u>	<u>Permanently Restricted</u>	<u>Total Net Endowment Assets</u>
Endowment net assets, June 30, 2013	\$ 9,831	\$ -	\$ 375	\$ 10,206
Contributions received	-	-	-	-
Change in value of beneficial interest	1,180	-	-	1,180
Amounts appropriated for expenditure	-	-	-	-
Endowment net assets, June 30, 2014	\$ 11,011	\$ -	\$ 375	\$ 11,386
Contributions received	-	-	-	-
Change in value of beneficial interest	(9)	-	-	(9)
Amounts appropriated for expenditure	-	-	-	-
Endowment net assets, June 30, 2015	<u>\$ 11,002</u>	<u>\$ -</u>	<u>\$ 375</u>	<u>\$ 11,377</u>

**Note 7 – Fair Value Measurements**

Fair value of assets measured on a recurring basis at June 30, 2015 and 2014, are as follows:

	<b>2015</b>	<b>2014</b>
	<b>Significant Unobservable Inputs (Level 3)</b>	<b>Significant Unobservable Inputs (Level 3)</b>
Beneficial interest in assets held by the Klamath Community Foundation	\$ 11,377	\$ 11,386

The table below presents information about the changes in the beneficial interest in assets held by the Klamath Community Foundation for the years ended June 30, 2015 and 2014, which is measured at the fair value of the Organizations interest in the amount that has been advanced to the Klamath Community Foundation. The Klamath Community Foundation reports this value to the Organization on a quarterly basis.

	<u>2015</u>	<u>2014</u>
Endowment net assets, beginning of year	\$ 11,386	\$ 10,206
Contributions received	-	-
Interest & dividends received	-	-
Realized gain (loss) on investment	-	-
Investment expense & fees	(113)	(108)
Unrealized gain (loss) on investment	104	1,288
Endowment net assets, end of year	<u>\$ 11,377</u>	<u>\$ 11,386</u>

**Note 8 – Subsequent Events**

The Organization has evaluated subsequent events through November 5, 2015, the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosures in these financial statements.
